5. Review and discuss the Town's Comprehensive Plan and possible updates.

Cerny discussed concepts on how to establish a Village center for the Town. He explained that with the current population projections don't have a great impact on the Town over the next 20 years, he felt that the Town needs to support businesses looking to move or grow in the Town and to also look at creative options for increasing awareness of the Town.

Discussion pursued on future development impacts and how to best use the multiple village center site concepts to the best of the Town. Consensus of the Plan Commission was to prepare a simple plan that would illustrate these multiple sites with a large circle, highlighting their locations. This plan could then be presented to the landowners within each highlighted area.
